FAQ

Is the consult room wheel chair accessible?

Unfortunately, the consult room is not wheelchair accessible. The room is located on the first floor which is only accessible via a stair case.

How many toilets does Soul Space have?

We have the one unisex toilet/bathroom. This is shared with anyone using the downstairs hall space.

Is there space to offer floor work with a client?

Yes, the massage table can be packed away and easily stored in the cupboard creating a large space for any floor work you offer.

We are located in a fairly quiet residential area so the surrounding noise levels are low level traffic. If there is a workshop or event in the downstairs hall space there could be ambient noise from voices, music and other activity coming from the space.

Access to the kitchenette facilities are not part of the consult room hire agreement. If there is no one using the hall space you are more than welcome to use the kitchenette but access is at no time guaranteed.

Do you supply therapeutic items?

Any therapeutic equipment including but not limited to towels, sarongs, massage oils or oil diffusers are not included as part of your hire. You will need to supply any items you use as part of your sessions. You are welcome to use our yoga equipment with clients when hiring the consult room.
